Good and pleasant

Highlight of our Singapore trip

Spectacular Light Show

Family day out

Its amazing!

A must visit

Nice place if you love greens

Must see!

Beautiful

REVIEW_BODY

What a place to spend time with kids. Very nicely maintained. Good view of skyline. Lift appeared bit costly. Cons. No proper guidance about where to go and what to see, so gave 4 *

I strongly suggest this beautiful attraction. It is expensive but totally worth it. Need at least a full day to really appreciate the beauty, work and detail to this attraction. We bought the 4 park pass. This gives you entrance to the Flower dome, Cloud dome, Floral Fantasy (my personal favourite) and a walk on the sky walk. If you get a stamp on your hand when you leave each area you can re-enter. If you don't like walking or cannot walk long distances, I would suggest getting the shuttle which was also included in our park ticket.

There is a free children's water park which we used with our kids halfway through for a break and for them to cool off. There are change rooms right there and a playground.

There is a Macdonalds there for cheaper food, or just bring some food with you.

A must see is the light show at 7:45 and 8:45 - this is free!

We ran out of battery on our phone but the park has free power charging stations which was a life saver.

We visited the Flower Dome and the Cloud Forest as well as the outside gardens. I would recommend a visit to this attraction. The gardens are very attractive. We stayed for the evening Light Show. This finished off a Great place for family day. Lots of places for children to explore. The Skywalk is a highlight for my boys whom I love high. Great view of Singapore. We also watch the light show at night after dinner at the Majestic. We bought tickets to both attractions and visited the cloud forest first. It is without a doubt worth every cent - such an incredible experience and you just go at your own pace and take it all in. Stunning displays of beautiful flora enjoyed at many levels. And then there are peaks through to the outside vistas of the Singapore skyline. The flower dome had a beautiful display of dahlias which are one of my favourite flowers and along with some CNY celebratory installations it was enjoyable but doesn't quite come up to the cloud forest.

What an amazing garden this was. There is so much to do and the light show at night is beautiful. We could have spent a whole day here unfortunately we only spent the second half of the day which was a shame as we didn't make it for the outdoor skywalk or enjoy any of the restaurants surrounding. Definitely a must visit. Got tickets for floral fantasy, flower dome, cloud forest so might well visit one time. All of three, I think cloud forest is the best. Waterfall and skywalk around the lush greenery is nice. Nice ride at the end of floral. Don't miss the light show in gardens by the bay. Every evening. We saw the Garden waltz - it was enchanting. A spectacular and beautiful setting the light show was an amazing experience for us to see and hear. You can
